

My Topics Privacy Policy

The My Topics app collects no personally identifiable information.

However, it does use Google AdMob, which may collect the following information in order to present relevant advertising:

- IP address, which may be used to estimate the general location of a device.
- Non-user related crash logs
- User-associated performance data such as app launch time, hang rate, or energy usage,
- The device's advertising identifier
- Advertising data, such as advertisements the user has seen
- Other user product interactions like app launch taps, and interaction information, like video views
